Summary

Full stack web developer with graphic design and teaching experience. Strengths include collaboration, project management, and communication. Juggled teaching English, Creative Coding, and Aerobic Conditioning with a remote part-time graphic design position at a small homebuilding company. Produced excellent print and digital marketing materials by required production deadlines. Strong work ethic and ability to successfully manage competing priorities will thrive in a fast-paced, quality-driven web development team.

Technical Skills

HTML5, CSS3, JavaScript, jQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Sequelize, Handelbars.js & React.js, as well as Adobe Photoshop, Illustrator, and InDesign.

Projects

EvenCuriouser   even-curiouser.herokuapp.com/
Role: Front End Architect
Full-stack application that helps teachers and students have a better teaching and learning experience by bringing all of the links, assignments, grades, and messaging systems into one centralized location.

The Ally App   ally-resources.herokuapp.com/
Role: Front End Architect
Full-stack, MVC application that allows users to create, update, and delete help posts and petitions, as well as view hundreds of resources about how to combat racial inequalities.

Hike & Forage Utah   aanielson.github.io/hikeandforageapp/
Role: API integration
Awarded "Most Overall Original Concept" for connecting users with local hikes to forage plants.

Experience
